**Thank you for your order! Below are instructions for sending your photo:**

1. **Make sure your photo is at least 200 ppi and in high quality .jpg format.**
2. **Make sure your photo is properly oriented (8x10 for blankets and wall hangings; square for pillows or tote bags).**
3. **Email your picture to [blankets@digitalscrapbookplace.com](mailto:blankets@digitalscrapbookplace.com).**

**Please allow 4-6 weeks for delivery.**

Below are some suggestions and FAQ that will help you get the best product. Enjoy your new family heirloom!

#### CHOOSING THE BEST PHOTO

Choose a photo with good focus and high contrast. A white subject on a white background will not yield the best product, nor will dark on dark. We will do minimal color correction where obviously needed, but it is always best to send a good, crisp photo. We may need to crop your photo to best achieve a proportion of 8x10.

For digital photographs, please make sure that the photo is of reasonably high resolution, as a photo that is too small will result in a muddy, low resolution end product. We suggest a minimum of 200 ppi.

We cannot accept photographs of copyrighted materials, such as theme characters and sports mascots.

---

#### FREQUENTLY ASKED QUESTIONS:

Below, we've listed a number of our most frequently asked questions. Also, you'll find helpful hints to make your product the best it can be.

**Q: What photos can I use?**

**A: Any photo you like! There are a few guidelines we'd like to offer, though.**

- **High contrast** - a nice, high contrast photo will always work best. If there is a good delineation between lights and darks, good detail in the subject and a balance in contrast, your blanket or wall hanging will turn out beautifully.
- **Large Subject Matter** - if your subject matter (a person, a pet, a building, etc) takes up the majority of the photo, you will be able to see more detail and the colors will be more vibrant and true-to-life. If the subject is too small, you might consider cropping the photo so that the subject takes up roughly 60-80% of the image.

- **Color** - try to choose a photograph with realistic coloring. If the face in the photograph is bright pink, chances are that your product will not look as realistic as you hope. Try to pick a photo with good skin tones, nice colors and one that is not too faded or old. Remember, while we will do some minor color correction and tone enhancements, what you send is what you will receive. The better and more realistic your photo is, the happier you will be with the finished product.

- Old Photos - while we can certainly make your product from any photo, older photographs are not always the best choice. They can be faded or the color can change over time. For best results, pick the clearest, most color-rich older photograph you have.
- Focus - please make sure that the photo you send is in focus. We can do minimal sharpening, but a crisp photo will always work best
- Black & White Photos - we can create your product from a black and white photo. No problem!

Q: How many people/pets/buildings can I have in my photo?

A: You can have as many as you'd like, but remember that the smaller the detail, the less likely it is to show up in a woven piece. A blanket with a couple of large faces will yield higher detail in those faces compared to a photo with 10 people in it.

Q: How long will it take?

A: 4-6 weeks. Often, much faster. A lot of that depends on the time of year and the number of orders we have.

Q: Are these products printed?

A: No! These products are jacquard woven, 100% cotton. Never printed.

Q: Will the images and colors fade?

A: No! The images are woven of 100% cotton, so they will not fade - even after repeated washings. If left in direct sunlight for very long periods of time, there may be minor fading.

Q: Are these products washable?

A: Absolutely. Our blankets are machine washable. We recommend cold water and tumble drying on the lowest setting. Due to the nature of the backing and lining of our wall hangings, bags and pillows, we recommend spot cleaning only.

#### **Disclaimers and Liability**

##### **Liability**

This unique product may require creative photo cropping and composition. The photo may be enlarged or reduced so as to create the most beautiful rendition in either a vertical or horizontal format.

We recommend washing product by hand washing in cool water using a mild detergent or machine wash on gentle cycle separately. Dry on cool cycle. 100% cotton.

Black and white photos will be woven as black and white, and color photos will be woven in color.

#### **ALL ORDERS ARE CUSTOM PRODUCED AND YOUR ORDER CANNOT BE CANCELLED**

##### **No Copyrighted Photographs**

Copyrighted photos will not be accepted without written permission from the photographer. A copyrighted picture will usually be identified as follows: 1) the words "Copyrighted photo - do not copy" imprinted on the back of the photo, 2) a copyrighted logo or 3) a professionally published photo or artwork e.g. magazine photo. Please use a different photo if you are in doubt as to whether your submission is copyright protected.

##### **Digital Photos**

Low resolution images will not reproduce well, please make sure that the image you email is at least 200 ppi resolution.

Please be sure to retain a copy of your order number. This is the only way you will be able to track your order or contact us with questions.
